

*Friends of Bohemian National Cemetery
Fence Work along Pulaski Road planned for 2026*

Metal Work Needed

Bohemian National Cemetery has been called a beautiful Garden of the Dead. A view through the fence while driving along Pulaski Road presents a pleasant landscape.

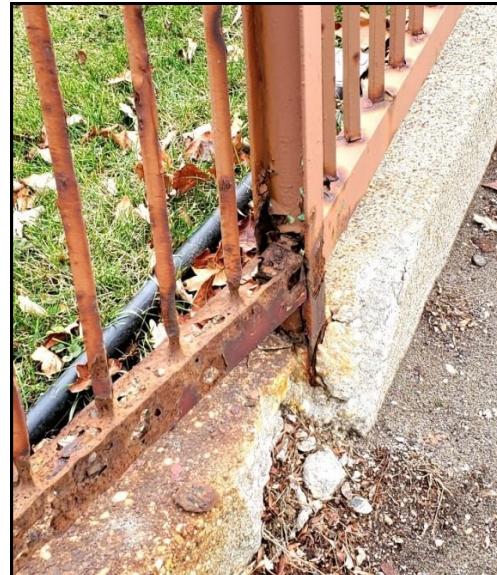

However, on closer look, many of the iron panels and the posts supporting them have deteriorated and are collapsing.

*Friends of Bohemian National Cemetery
Fence Work along Pulaski Road planned for 2026*

Masonry Work Needed

Many brick posts are leaning dangerously and have serious mortar loss. The concrete curbing that supports both metal posts and brick posts needs repair or replacement.

With your help we can restore Bohemian National Cemetery's public face
by making the Pulaski Road fence both safer and more attractive.

More details about the fence project are in a letter from the president of Friends of BNC.
